# **Corporate Planning Cycle**

## **Policy Statement**

### **1. Policy statement**

---

The Force will have a documented planning cycle which will deliver a structured and iterative approach to planning within the organisation, identifying key strategic objectives and driving the prioritisation of resource through an effective process of strategic debate and review that will improve corporacy across the Force and create a sense of shared ownership and purpose.

Corporate planning is at the heart of the Force's corporate governance arrangements and is a key driver in the delivery of the Putting People First vision and values. The corporate planning cycle will identify the policing priorities and translate those broad priorities into practical and tangible plans that will incrementally deliver Putting People First. It is a key component of the assurance framework that ensures strategic priorities drive all significant activity and that our people, policies and systems are operating effectively and are focused on key risks to the delivery of those priorities.
