

ISSUE 4 | YOUR WARD

The official ward newsletter for Rural West

Quad Bikes/off road bikes ASB.

In the rural area of Hartlepool there is an issue with quad bikes/off road bikes causing damage to the crops and causing damage to the fences and also livestock. Please call if you have any info about these people.

Calls about ASB in the area are low at this moment.

As harvesting is now underway please keep children/animals out of the fields where the combine harvester is working to avoid any accidents.

Please keep all dogs on leads when out walking especially near animals.

You said, we did

I am PCSO Cath Jones and have worked for Hartlepool Police for over 15 years, for all that time I have worked in Rural Crime.

We have been asked to try and curb the ASB that quads, bikes etc are causing. With regards to that we have been proactive in the area and have been getting the names and addresses of some of the people involved and speaking to them. Also we will be seizing vehicles and giving fines to the people involved.

Crime & ASB figures for Rural West and West Park.

The terns will soon be finishing nesting in the area (until next year) and we are hoping to put a safer fence around the site instead of the ropes we have had in the area at this moment in time.

Please make sure that your car, doors etc are locked so that no-one can get in as there has been a walk in burglary in the area.

If you would like any of your valuables, items, bikes marked with your postcode, phone number please ask us about the dot pen machine which we have which will mark your item.

COASTALWATCH

I have set up in the last year a Coastalwatch programme, which incorporates us working with outside agencies with the agenda of reducing crime in and around the sea and coast.

Now that covid is finally on the wane I am hoping that we will see a return of more face to face residents meetings.

Dates for your diary

I am holding a drop in at The Place in the Park on Sept 30th from 10 until 12 and then again on 27th Oct again from 10 until 12. Please come along and discuss any issues or just pop in for a chat.
